

SelectORIZED P3 Shoulder Press

Product Images

Description

Binom Powerful P3 Selectorized Shoulder Press - 100% Professional

The selectorized shoulder press machine is an essential tool in any gym, designed with a high-quality square steel tube (50 x 100 mm and 3 mm thick) that guarantees durability and strength. Equipped with stable feet for secure support and nylon pulleys that ensure smooth movement, this machine allows precise incremental adjustments with 5 kg plates, reaching a maximum capacity of 80 kg. The aluminum handles feature a protective design, ensuring a comfortable and safe user experience, while its 170 kg weight provides additional stability.

We are more than confident in telling you that by choosing this machine, your investment will be guaranteed with a **100% reliable and precise product**. With all necessary spare parts in stock, you can save space and money. The biomechanics of this equipment have been created by the best engineers and trainers to develop muscles in the most efficient way possible.

Binom Powerful P3 Selectorized Shoulder Press
