

Plate Loaded BSL124 Isolateral Shoulder Press

Product Images

Description

Binom Steel - BSL124 Isolateral Shoulder Press with Plate Load - 100% Professional

The Binom Steel BSL124 Isolateral Shoulder Press with Plate Load is a specialized training machine designed to isolate and strengthen the deltoid and triceps muscles. Its plate load system allows precise weight adjustment, facilitating personalized training according to each user's needs. Being isolateral ensures that each side of the body works independently, promoting balanced muscle development and improved symmetry.

We are more than confident in telling you that with the choice of this machine, your investment is guaranteed with a **100% reliable and precise product**. With all necessary spare parts in stock, you can save space and money. The entire biomechanics of this equipment has been designed by top engineers and trainers to efficiently isolate the muscle.

Binom Steel BSL124 Isolateral Shoulder Press with Plate Load

GENERAL FEATURES

The Binom Steel allows the user to experience the same range of motion and feel as free weights, but with the safety of a machine. Its divergent lever arms operate independently, allowing for muscle isolation and contraction for more efficient training. The machines include:

- Chassis with an **ultra-reinforced structure**.
- **High-quality steel** Q325.
- The most resistant steel finishes on the market.
- **Free exercise switch** with dual functions, making the exercise much more comfortable.

Our shoulder press with plate load is recognized in the fitness world for its high quality and reliability. Our products are a benchmark for delivering the best performance under intensive use. As a professional plate-loaded machine, it delivers high performance without causing any significant wear on its components.

TECHNICAL FEATURES

- Designed to isolate and strengthen deltoid and triceps muscles.
- Structure: Oval mainframe tube 50 x 100 mm.
- Material: High-quality steel.
- Each arm of the machine works independently for optimal muscle isolation and contraction.
- Includes 4 storage bars, each supporting 100 kg.
- High-quality aluminum bars with a capacity to support up to 100 kg.
- High-performance industrial bearings.
- Seat with hydraulic adjustment in up to 13 positions.
- Suitable for 50 mm diameter plates.
- Robust construction with a 3 mm thick tube.
- Maximum user weight: 180 kg.
- Weight: 130 kg.
- Packaging dimensions: 160 cm x 105 cm x 52 cm.
- **DIMENSIONS:** Length: 145 cm x Width: 189 cm x Height: 157 cm.

All BINOM equipment is manufactured with the highest design and quality controls to offer our customers the best quality at the best price.

Additional Information

Product line	Steel
Use	Profesional
Condition	New
Total Dimensions (cm)	L: 145 cm x W: 189 cm x H: 157 cm.
Machine Weight (Kg)	130 kg.
