Description

Binom Steel - BSL219 Plate-Loaded Linear Row Machine - 100% Professional

The **Binom Steel BSL219** machine is a specialized piece of equipment for linear rowing training, designed to efficiently work the muscles of the back, shoulders, and arms. Thanks to its plate-loaded system, it offers adjustable resistance levels suitable for any strength level and features a robust construction. Its backrest and footrests are designed to provide comfort during long training sessions, allowing for perfect alignment and adjustment to ensure proper posture and prevent injuries.

We are more than confident in saying that with the choice of this machine, your investment is guaranteed with a **100% reliable and precise product**. With all necessary spare parts in stock, you will save both space and money. The entire biomechanics of this machine have been developed by top engineers and trainers to isolate the muscles in the most efficient way.

Binom Steel BSL219 Plate-Loaded Linear Row Machine

GENERAL FEATURES

The Binom Steel allows the user to experience the same range of motion and feel as free weights, but with the safety of a machine. **The machines include:**

- Chassis with an **ultra-reinforced structure**.

- **High-quality steel** Q325.
- The most resistant steel finishes on the market.
- **Free exercise change** with dual functions that make the workout much more comfortable.

Our plate-loading system is renowned for its high quality and reliability. Our products are a benchmark for offering the best performance under intensive use. As a professional plate-loaded machine, it offers high performance without any of its components showing the slightest wear and tear.

TECHNICAL FEATURES

- Structure: Main frame oval tube 50 x 100 mm.
- Material: High-quality steel.
- Includes 2 storage bars, each supporting 100 kg.
- High-quality aluminum bars capable of supporting up to 100 kg.
- High-performance industrial bearings.
- Backrest adjustable in different positions according to the user's height.
- Footrests adjustable in angle.
- Suitable for plates with a 50 mm diameter.
- Robust construction with a tube thickness of 3 mm.
- Maximum user weight: 180 kg.
- Weight: 165 kg.
- Packaging dimensions: 172 cm x 122 cm x 62 cm.
- **DIMENSIONS:** Length: 172 cm x Width: 121 cm x Height: 170 cm.

All BINOM machines are manufactured under the highest design and quality controls to offer our customers the best quality at the best price.
