

Plate Loaded BSL214 Hack Squat

Product Images

Description

Binom Steel - BSL214 Hack Squat - 100% Professional

The **Binom Steel BSL214 Hack Squat** is a high-resistance training machine designed to offer a guided and safe movement for leg exercises. It features a height-adjustable backrest and an inclined foot platform, ensuring optimal ergonomics and greater muscle activation. Its robust structure guarantees stability and durability, while the integrated storage bars facilitate the organization of weight plates, optimizing training space.

We are more than confident in saying that by choosing this machine, your investment will be guaranteed with a **100% reliable and precise product**. All necessary spare parts are in stock. You will save space and money. The biomechanics of this equipment have been developed by top engineers and trainers to isolate the muscle in the most efficient way.

Binom Steel BSL214 Hack Squat

GENERAL FEATURES

The Binom Steel allows the user to experience the same range of motion and feel as free weights but with the safety of a machine. **The machines include:**

- Frame with **ultra-reinforced structure**.
- **High-quality steel** Q325.
- The most durable steel finishes on the market.
- **Free exercise switching** with dual-function features that make the workout much more comfortable.

Our weight plate load system is recognized for its high quality and reliability. Our products are a benchmark for providing the best performance under intensive use. As a professional weight plate-loaded machine, it delivers extremely high performance without any of its components suffering the slightest wear.
