Description

Binom Strength BS133 Stretching Bench

The stretching bench is designed to improve flexibility, mobility, and muscle recovery. Its ergonomic structure allows for controlled stretches of the back, abdomen, and other areas of the body, helping to reduce muscle tension and prevent injuries. It is ideal for athletes, individuals in rehabilitation, or anyone looking to improve their posture and overall well-being.

We are more than confident in saying that with the choice of this machine, your investment will be guaranteed with a 100% reliable and precise product. With all the necessary spare parts in stock, you will save space and money. The entire biomechanics of this machinery has been created by the best engineers and trainers to efficiently isolate the muscle.

Binom Strength BS133 Stretching Bench

GENERAL FEATURES

The BS133 stretching bench is a strong and functional option for those looking to improve their flexibility and mobility. Designed with high-quality materials, it offers stability and comfort during use. Its structure

incorporates an ergonomic grip with aluminum finishes and different angles to adapt to various positions. Additionally, it features integrated transport wheels for easy movement and a support for small electronic devices, making training more practical and comfortable.

With our Binom Strength machinery line, you'll achieve the best results for yourself and your clients. Major gyms use our machines as an essential part of their offerings to clients, and Binom machines have proven to be the most effective for working all muscle groups, whether for definition or muscle-building.

Binom Fitness is our brand. Recognized in the fitness world for its high quality and reliability, our machinery is proud to offer the best response to intensive use. These are strength machines that, with minimal maintenance, will bring joy for a long time.
