

Plate Loaded BSP153 Squat Machine

Product Images

Description

Binom Steel Pro - BSP153 Plate-Loaded Squat Machine - 100% Professional

BSP153 Plate-Loaded Machine designed to perform **squats** with a fully ergonomic posture. It includes four stainless steel storage bars, each capable of holding up to 125 kg in weight plates. Equipped with industrial-grade bearings for smooth motion and includes a squat belt. Additionally, the steel foot platform with anti-slip coating allows for adjustable positioning to enhance support. Designed to target the hamstrings, quadriceps, and glutes, the BSP153 is a robust squat machine suitable for all users.

We are confident in telling you that choosing this machine guarantees your investment with a **100% reliable and precise product**. All replacement parts are in stock. You'll save space and money. The biomechanics of this machine have been developed by top engineers and trainers to isolate the muscle in the most efficient way possible.

Binom Steel Pro BSP133 Plate-Loaded Squat Machine

GENERAL FEATURES

This plate-loaded machine from the Steel line was designed and built to meet the ongoing demands of the fitness market, which seeks high-quality equipment at very competitive prices. You can enjoy top professional quality even in smaller spaces, as most machines in this line work more than one muscle group.

The Binom Steel allows users to experience the same range of motion and feel as free weights, but with the safety of a machine. **Machines include:**

- Frame with **ultra-reinforced structure**.
- **High-quality steel** Q325.
- Some of the most durable steel finishes on the market.

Our plate-loaded machine is known for its high quality and reliability. Our products are a benchmark for their performance under intensive use. As a professional-grade machine, it can deliver extremely high performance without any wear or stress on its components.

TECHNICAL SPECIFICATIONS
