

Plate Loaded BU103 Belt Squat Machine

Product Images

Description

Binom Ultimate - BU103 Plate Loaded Belt Squat Machine - 100% PROFESSIONAL

The BU103 Plate Loaded Belt Squat Machine is a training equipment designed to safely and efficiently work the lower body, allowing squats to be performed more comfortably by reducing back strain and focusing the effort on legs and glutes. It is an ideal option for both gyms and personal training, as it combines resistance, stability, and versatility in a single piece of equipment.

Among its main features, it stands out for its robust structure with 3 mm thick tubes, made of high-quality steel. Its wide support surface provides safety and stability when performing movements, while the supports placed at different heights allow the weight to be released comfortably at the end of each set. In addition, it includes two bars specially designed to load plates and two additional ones for storage, keeping the space tidy and practical. As a complement, the equipment comes with a chain and belt, offering everything necessary to perform squats comfortably and efficiently.

We are more than confident in saying that with the choice of this machine your investment will be guaranteed with a 100% reliable and precise product. With all the necessary spare parts in stock. You will save space and money. The entire biomechanics of this machine has been created by the best engineers and trainers to isolate the muscle in the most efficient way.

Binom Ultimate BU103 Plate Loaded Belt Squat Machine

GENERAL FEATURES

The plate-loaded machines from the Binom Ultimate line offer superior performance for strength training. Incorporating advanced technology and high-quality materials, they guarantee a more efficient and comfortable exercise experience for the user.

Its sporty design, carefully crafted, stands out for elegance and modernity, in addition to offering exceptional

ergonomics. The combination of colors and finishes gives it a distinctive touch that stands out in any gym environment.

Muscles involved in the exercise:

- Quadriceps
- Hamstrings
- Glutes

Built to withstand the most intense use, our plate-loaded machines combine resistance and precision in every movement, ensuring safe and efficient training. With premium materials and a robust design, they are the ideal choice for those seeking to maximize performance without compromising durability.

Boost your training with the Binom Ultimate plate-loaded machines: elegant design, unmatched performance. Take your strength to the next level!
