Description

Binom Ultimate BU119 Squat Machine with Plate Loaded - 100% PROFESSIONAL

The **Binom Ultimate BU119 Squat Machine with Plate Load** is a professional machine designed for full lower body development, ideal for demanding users. It allows guided squats with plate load, reproducing the natural bending and extension movement of the knees and hips with complete safety and control. Its robust structure and loading system ensure excellent stability and resistance, allowing efficient weight progression. This machine effectively activates the lower body, promoting a balanced and powerful posterior chain development. Whether for **hypertrophy, strength gain, or functional performance improvement**, the BU119 combines **versatility, ergonomics, and durability** in a single piece of equipment.

We are confident in saying that by choosing this machine, your investment will be guaranteed with a 100% reliable and precise product. All necessary spare parts are in stock. You can save space and money. All the biomechanics of this machinery have been designed by top engineers and trainers to isolate muscles in the most efficient way.

Binom Ultimate BU119 Squat Machine with Plate Load

GENERAL FEATURES

This Squat Machine is designed to strengthen the **legs and glutes**. It allows performing the jaca or inclined

squat with plate load, a movement that involves controlled bending and extension of the knees and hips. This exercise primarily activates the quadriceps, glutes, and hamstrings, providing a full lower body workout with a safe and guided posture.

The plate load machines from Binom's Ultimate series provide optimal performance for strength training. Thanks to the use of top-quality materials and advanced technology, they offer a more effective and comfortable exercise experience for the user. Their **design**, conceived with a **sporty and modern** approach, combines elegance with ergonomics, ensuring comfort and safety during workouts. The carefully selected colors and finishes provide a distinctive style that enhances any gym space.

Muscles involved in the exercise:

- Quadriceps.
- Glutes.
- Hamstrings.

Designed to withstand the most demanding workouts, our plate load machines combine **durability and precision** in every repetition, offering a safe and effective exercise. Thanks to high-quality materials and a robust structure, they are the perfect choice for those looking to improve performance without sacrificing equipment longevity.

TECHNICAL SPECIFICATIONS

- Main rectangular tube: 50 x 100 mm; secondary tubes: 50 x 75 mm and 50 x 50 mm.
- Tube thickness: 3 mm.
- High-strength steel structure with a matte black finish.
- Includes various grips for greater user comfort.
- Adjustable foot base angle.
- High-density foam cushions covered with premium leather.
- Equipped with 3 bars designed to hold weight plates and 2 additional storage bars.
- Maximum capacity: Supports up to 200 kg of load.
- Equipment weight: 180 kg.
- Packaging dimensions: Length 170 x Width 100 x Height 78 cm.
- **Dimensions:** Length 223.5 x Width 150 x Height 170.5 cm.

All BINOM Machinery is manufactured with the highest design and quality controls to provide our customers with the best quality at the best price.
