

SelectORIZED BSP01 Chest Press

Product Images

Description

Binom Steel Pro BSP01 - Selectorized Chest Press - 100% Professional

The **Binom Steel Pro BSP01 Selectorized Chest Press** provides **precise and safe training** for the chest, anterior deltoids, and triceps. Its **reinforced structure and high-strength cables** ensure intensive and long-lasting use. The nylon pulleys and magnetic plate selector allow **smooth movements and quick adjustments**. With **5 seat positions and 3 arm starting points** for optimal comfort, this 285 kg machine combines **performance, reliability, and comfort**, making it ideal for professional gyms.

Your investment is secure with a **100% reliable and precise product**, and all spare parts are available in stock. The biomechanical design, developed by expert engineers and trainers, allows for maximum and efficient muscle isolation.

Binom Steel Pro BSP01 Selectorized Chest Press

GENERAL FEATURES

The machine allows **easy seat height adjustment** for a correct and comfortable position. Its **converging**

movement replicates the natural pushing motion, optimizing chest activation and reducing shoulder strain. It also allows for **unilateral or bilateral training**, promoting balanced muscle development and better coordination.

The Binom Steel Pro range combines machine safety with the feel of free weights. **Each machine includes:**

- High-quality nylon pulleys.
- Ultra-reinforced frame for maximum stability.
- High-strength cables for intensive use.
- Magnetic plate selector for fast and secure adjustment.
- Advanced manufacturing: laser cutting, robotic welding, and corrosion-resistant finish.

Our guided machines stand out for their **exceptional quality and reliability**. Designed for professional intensive use, they deliver high performance without compromising any component.

TECHNICAL SPECIFICATIONS

- Structure: Main oval flat tubes 65 × 114 mm and 40 × 70 mm.
- Tube thickness: 3 mm for maximum strength.
- High-performance industrial bearings.
- Front frame: D-shaped tube 76 × 130 × 3 mm.
- 114 mm nylon pulley for smooth and quiet movement.
- 3 arm starting point adjustments for optimal comfort.
- Plate weight: 1 × 5 kg + 13 × 7 kg + 2 additional 2.3 kg plates.
- Total plate weight: 100.6 kg.
- Material: High-quality Q235 steel.
- Seat adjustment: 5 positions.
- Machine weight: 285 kg.
- Maximum user weight: 200 kg.
- Packaging dimensions: 172 × 102 × 127 cm.
- **MACHINE DIMENSIONS:** Length 104.5 cm × Width 150 cm × Height 160 cm.

All BINOM machines are manufactured to the highest design and quality standards, providing our clients with the best quality at the best price.

Additional Information

Product line	Steel
Use	Profesional
Condition	New
Total Dimensions (cm)	L: 104.5 cm x W: 150 cm x H: 160 cm.
Machine Weight (Kg)	285 kg.
Total Weight of Plates	96 kg + 4.6kg.
Available on	20 May 2026
