Description

Binom Steel Pro - BSP12 Selectorized Seated Leg Curl - 100% Professional

The **Binom Steel Pro BSP12 Selectorized Seated Leg Curl** combines ergonomic design with professional performance for a safe, comfortable, and effective hamstring workout. Its selectorized system allows for **smooth and controlled movement**, while the backrest adjustable in 8 positions and arms adjustable in 5 positions adapt to any user. The **front grips** and optimized biomechanics ensure perfect execution every repetition, making each set efficient and comfortable.

Its robust high-quality steel frame, together with industrial bearings and silent pulleys, guarantees stability and durability even during the most demanding workouts. With a **stack of over 120 kg** and capacity for users up to 200 kg, the BSP12 offers the perfect combination of comfort, performance, and reliability, making it an essential piece of equipment for any gym seeking excellence and professionalism.

We can confidently say that by choosing this machine, your investment is guaranteed with a **100% reliable and precise product**. With all necessary spare parts in stock, you save both space and money. All biomechanics of this equipment have been designed by top engineers and trainers to isolate the muscle in the most efficient way.

Binom Steel Pro BSP12 Selectorized Seated Leg Curl

GENERAL FEATURES

Designed to provide **optimal hamstring isolation**, ensuring smooth, controlled, and full-range movement in every repetition. It includes a **4-position range limiter** to easily adjust the starting angle of the exercise, adapting to user preferences and mobility limitations. Its robust structure, together with adjustable rollers and ergonomic seat, ensures proper positioning and maximum stability throughout the workout.

The Binom Steel Pro line allows users to experience the same range of motion and feel as free weights, but with the safety of a selectorized machine. **Machines include:**

- High-quality nylon pulleys.
- Chassis with ultra-reinforced structure.
- High-resistance cables designed for intensive use.
- Magnetic plate selector for quick and secure adjustments.
- Advanced manufacturing with laser cutting, robotic welding, and high-durability anti-corrosion finish.

Designed for intensive use, it features a **117 kg + 4.6 kg weight stack** with a **1:1 transmission ratio**, making it ideal for both beginner and advanced users. Premium finishes, 80 mm padding, and high-end components enhance durability and comfort, resulting in a reliable, strong machine ready to perform at the highest level.

Our guided load machines stand out for their **high quality and reliability**. They are a benchmark for their excellent response to intensive use. Being a professional machine, it allows maximum performance without any component experiencing stress.

TECHNICAL SPECIFICATIONS

- Structure: Main frame oval tubes 65 × 114 mm and 40 × 70 mm.
- Robust construction with 3 mm tube thickness.
- High-performance industrial bearings.
- Front frame: D-shaped tube 76 × 130 × 3 mm.
- 114 mm nylon pulley for smooth and silent movement.
- Weight plates: 1pc x 5 kg + 16pc x 7 kg + 2 additional pcs x 2.3 kg.
- Total plate weight: 117 kg + 4.6 kg.
- Material: High-quality Q235 steel.
- Front grips for more comfortable exercise.
- Backrest adjustable in 8 positions.
- Lower and upper arms adjustable in 5 positions.
- Weight: 321 kg.
- Maximum user weight: 200 kg.
- Packaging dimensions: 172 cm x 102 cm x 77 cm.
- **DIMENSIONS:** Length: 155 cm x Width: 117 cm x Height: 160 cm.

All BINOM machinery is manufactured with the highest design and quality controls to offer our clients the best quality at the best price.

Additional Information

Product line	Steel
Use	Profesional
Condition	New
Total Dimensions (cm)	L: 155 cm x W: 117 cm x H: 160 cm.
Machine Weight (Kg)	321 kg.
Total Weight of Plates	117 kg + 4.6kg.
Available on	20 May 2026
