

SelectORIZED BSP08 Lat Pulldown Machine

Product Images

Description

Binom Steel Pro BSP08 - Selectorized Lat Pulldown Machine - 100% Professional

The **Binom Steel Pro BSP08 Selectorized Lat Pulldown Machine** is designed to develop strength in vertical pulling movements, allowing you to train the latissimus dorsi and supporting muscles in a precise, stable, and controlled way. Ideal for strength programs, posture improvement, and targeted back training.

Thanks to its **1:1 cable ratio**, this **selectorized back machine** ensures that the selected load is applied directly and effectively throughout the entire movement. Its **adjustable hold-down rollers** and **smooth guided motion** provide stability, safety, and constant tension on the lats, trapezius, and supporting muscles, delivering a **precise and controlled strength workout**.

As part of the Binom Steel Pro line, this machine stands out for its robust construction, reliability, and design built to withstand intensive use in professional gyms, offering a comfortable, smooth, and long-lasting training experience.

We are confident in saying that choosing this machine guarantees your investment with a **100% reliable and precise product**. With all spare parts available in stock, you can save both space and money. The entire biomechanics of this equipment has been developed by top engineers and trainers to achieve the most efficient muscle isolation.

Binom Steel Pro BSP08 Selectorized Lat Pulldown Machine

GENERAL FEATURES

Designed to deliver a safe and efficient workout, this machine adapts perfectly to each user. The **seat** and ergonomic supports ensure a correct and comfortable posture, while the **selectorized system** allows for quick and progressive weight adjustments. The **reinforced structure**, combined with high-resistance cables and pulleys, ensures durability and stability even under intensive use.

The Binom Steel Pro line allows users to experience the same range of motion and feel as free weights, with the safety of a selectorized machine. **The machines include:**

- High-quality nylon pulleys.
- Ultra-reinforced frame structure.
- High-resistance cables designed for intensive use.
- Magnetic weight selector pin for quick and secure adjustments.
- Advanced manufacturing with laser cutting, robotic welding, and high-durability anti-corrosion finish.

Includes a **lat bar** and an open design that facilitates access, freedom of movement, and natural breathing, providing a professional experience suitable for all types of users and training programs.

Our selectorized machines stand out for their **high quality and reliability**. Our products are a benchmark for their excellent performance under intensive use. As a professional machine, it delivers maximum performance without putting stress on any of its components.

TECHNICAL SPECIFICATIONS

- Structure: Main frame flat oval tubes of 65 × 114 mm and 40 × 70 mm.
- Robust construction with 3 mm tube thickness.

- High-performance industrial bearings.
- Front frame: D-shaped tube 76 × 130 × 3 mm.
- 114 mm nylon pulley for smooth and quiet movement.
- Weight stack: 1 x 5 kg + 16 x 7 kg + 2 additional x 2.3 kg.
- Total weight stack: 117 kg + 4.6 kg.
- Material: High-quality Q235 steel.
- Seat adjustment in 5 positions.
- Weight: 291 kg.
- Maximum user weight: 200 kg.
- Packing dimensions: 197 cm x 87 cm x 62 cm.
- **DIMENSIONS:** Length: 177 cm x Width: 136 cm x Height: 228 cm.

All BINOM equipment is manufactured under the highest design and quality standards to offer our customers the best quality at the best price.

Additional Information

Product line	Steel
Use	Profesional
Condition	New
Total Dimensions (cm)	L: 177 cm × W: 136 cm × H: 228 cm.
Machine Weight (Kg)	291 kg.
Total Weight of Plates	117 kg + 4.6kg.
Available on	30 Jul 2026
