Binom Steel Plate Loaded BSL07 Jaca

GENERAL FEATURES

The Steel line has been designed and created for the continuous demands of the Fitness market, which demands high quality machinery at very competitive prices. You will be able to have the best professional quality in reduced spaces since almost all the machines in this line work more than one muscle group.

Machines include:

- Chassis with **ultra-reinforced structure**.
- Stainless steel of the highest quality.
- The most resistant steel finishes on the market.
- **Exercise switching free** of double functions that make the exercise much more comfortable.
- We adjust prices based on the quantity demanded.
- We can customize both the upholstery and the colors of the structures, the machines leave the factory fully assembled and with all the components revised to the maximum.

Our Bench Press is recognized in the world of fitness for its high quality and reliability, our products are a benchmark for having the best response to intensive use. As it is a professional disk loading machine, you can give it a very high performance without any of its components having a minimum of suffering.

All our benches are designed for high resistance to work, their finishes and design are created to make them the best option for your gym. Large gyms use Plate Loaded as an essential part of their offer to the client, convergent machines have proven to be the most effective free weight machines to work all muscle groups, either to define or to build muscle.
